**Compact
Peristaltic Pump
With Fixed Flow**

- Compact Peristaltic Fixed flow pump
- Very Small dimensions
- Easy installation and minimal maintenance.
- PP box reinforced 30% talk.
- Automatic priming
- Security and reliability.
- Polycarbonate front panel.
- Panel Mounted
- Roller holder in PBT
- Rollers in Derlin (self lubricant)
- Standard Power Supply 240VAC - 24VDC

Optional:

- Different power supply 110VAC or other upon request.
- Hand screws (Plastic Covered)
- Different Case Color (to be examined case by case)
- Front polycarbonate panel personalization (customer's logo)
- Other Flowrates, different than the standard ones reported below
- Different motor type according to the application requests

TECHNICAL INFORMATION

LIQUID ENDS

Component	Standard	Optional
Pump head	PP	PVC / PVDF
Diaphragm	PTFE	
Valve Balls	Pyrex	AISI316 / Ceramic
Injection fittings	PP	
O rings	Viton	Dutral
LIP Valve	Viton	
Ball Valve	Hastelloy / Pyrex	AISI 316

PACKAGE (cm / Kg)

Pump: 15 x 23 x 28	3,50
Multipack (6 Psz): 50 x 25 x 57	21

NOTES

- **MADE IN ITALY**
- **100% Tested before delivery**
- **Produced conform to CE laws**

PRODUCT SPECIFICATIONS

ME1-C

**Constant Digital
Electromagnetic
Pump With Adjustable
Flowrate**

- Solenoid Constant Digital pump
- Easy installation and minimal maintenance
- Frequency regulation from 0 to 180 pulsations per minute
- ON / OFF function
- 3 x 7 Segments digital display, Stand-by button and 5 State leds
- Pump head with manual bleed for pressure priming
- PP CASE and HEAD reinforced 30% talk
- IP 65 protection
- Security and reliability
- Polycarbonate front panel
- Wall mounting with stirrup
- 2,5 mt power supply cable
- Accessories Kit with ball injection valve, hastelloy spring

Optional:

- *Prearrangement for low level switch sensor*
- *Self Degassing Pump Head*
- *Other Flow-Rates (different from the standard indicated below) on request*
- *PVDF Pump Head*

INSTALLATION KIT

PRODUCT SPECIFICATIONS

ME1-i

**Proportional to Impulses
Electromagnetic
Digital Dosing Pump**

- Solenoid digital pump, proportional to the external (tension free) impulses number received
- Easy installation and minimal maintenance
- Can also work as constant digital pump with pulsation adjustment 0-180
- Function of impulses division and multiply (1xN, 1/n)
- Function of multiplication with memory (1xN-M)
- 3 x 7 Segments digital display, Stand-by button and 5 State leds
- Pump head with manual bleed for pressure priming
- PP CASE and HEAD reinforced 30% talk
- IP 65 protection
- Scurity and reliability
- Polycarbonate front panel
- Wall mounting with stirrup
- 2,5 mt power supply cable
- Accessories Kit with ball injection valve, hastelloy spring

Optional:

- *Prearrangement for low level switch sensor*
- *Self Degassing Pump Head*
- *Impulse percentage control function*
- *Other Flow-Rates (different than the standard ones indicated below) on request*
- *PVDF Pump Head*

MP1Speedy-pH

Digital Dosing pump
with pH control on-board

- Compact Peristaltic digital pump with a built-in pH controller
- Adjustable Setpoint between 6.0pH e 8.0pH
- Realtime display visualisation of the pH
- Probe efficiency indication
- Standard dosing mode (pH-) ACID Dosing
- Automatic calibration of just one pH point (pH7) using only one button!
- Easy installation and minimal maintenance
- 2 x 7 Segments digital display and one alarm led
- PP CASE and pump body, reinforced 30% talk
- IP 55 protection
- Security and reliability
- Polycarbonate front panel
- Wall mounting with stirrup
- 2,5 mt power supply cable
- Level alarm and overdosing protection integrated in the software

Optional:

- On-Off Button
- **COMPLETE PACKAGE:**

Upon request can be supplied complete with one pH Buffer Solution, pH electrode, electrode holder, Saddle Clamp, all packed in one box.

INSTALLATION KIT (Standard)

Mounting Bracket+ Screws	Suction Tube 2mt PVC	Inj. Tube 2mt PE	PP Injection Valve	PP Foot Filter
-----------------------------	-------------------------	---------------------	--------------------	----------------

COMPLETE PACKAGE Extra KIT (Optional)

1 x pH Electrode (Short type)	1 x 1/2" Pipeline Electrode Holder, made of PP 30% talk reinforced	2 x Saddle Clamp for Ø50 mm tubes, with 1/2" connection for electrode holder.	1 x 50cc pH 7 buffer solution bottle.

MP1Speedy-Rx

Digital Dosing pump
with ORP control on-board

- Compact Peristaltic digital pump with a built-in ORP controller
- Adjustable setpoint between 300mV e 800mV
- Realtime display visualisation of the ORP
- Probe efficiency indication
- Prearranged for CHLORINE dosing
- Automatic calibration of just one Redox point (468mV)
- Easy installation and minimal maintenance
- 2 x 7 Segments digital display and one alarm led
- PP CASE and pump body, reinforced 30% talk
- IP 55 protection
- Security and reliability
- Polycarbonate front panel
- Wall mounting with stirrup
- 2,5 mt power supply cable
- Level alarm and overdosing protection integrated in the software

Optional:

- On-Off Button
- **COMPLETE PACKAGE:**

Upon request can be supplied complete with one ORP Buffer Solution, ORP electrode, electrode holder, Saddle Clamp, all packed in one box.

- Polycarbonate front panel
- Wall mounting with stirrup
- 2,5 mt power supply cable
- Level alarm and overdosing protection integrated in the software

Optional:

- Low Level Switch sensor
- Filtration pump dosing consence
- **COMPLETE PACKAGE:**

Upon request can be supplied complete with one pH Buffer Solution, pH electrode, electrode holder, Saddle Clamp, all packed in one box.

INSTALLATION KIT (Standard)

COMPLETE PACKAGE Extra KIT (Optional)

1 x pH Electrode (Short type)	1 x 1/2" Pipeline Electrode Holder, made of PP 30% talk reinforced	2 x Saddle Clamp for Ø50 mm tubes, with 1/2" connection for electrode holder.	1 x 50cc pH 7 buffer solution bottle.
-------------------------------	--	---	---------------------------------------

TECHNICAL INFORMATION

Code	Lt/h	ML/RPM	Bar	RPM/Min	ML/Min	Watt	Tube
S03AA0104300	4	2,42	1	31	75	3,5	4x6 mm

APPLICATIONS

- Residential Swimming Pools
- Water Treatment

PUMP VIEW (mm)

INSTALLATION EXAMPLE

LIQUID ENDS

Component	Standard	Optional
Fittings	PP	
Tube	Santoprene 4x7	TYGON or Silicon
Internal lip valve	VITON	
Injection fittings	PP	
Non return foot filter	PP-Viton	

PACKAGE (cm / Kg)

Pump: 15 x 23 x 28	1,9
Multipack (6 Psz): 50 x 25 x 57	12

NOTES

- MADE IN ITALY
- 100% Tested before delivery
- Produced conform to CE laws

PRODUCT SPECIFICATIONS

MP2-Rx

Digital Dosing pump
with ORP control
on-board

- Compact Peristaltic digital pump with a built-in ORP controller
- Pump proportionality with Pause/Work time, max 300 seconds
- Realtime display visualisation of the ORP value
- 0 - 999 mV reading range.
- Probe efficiency indication
- Proportionality greatness field presetted to a value of mV
- Semi-automatic probe calibration
- Constant functioning mode.
- 5 state and programming leds.
- Accessories kit with a 1/2" injection valve
- Easy installation and minimal maintenance
- 3 x 7 Segments digital display and one alarm led
- PP CASE and pump body, reinforced 30% talk
- IP 55 protection
- Security and reliability
- Polycarbonate front panel
- Wall mounting with stirrup
- 2,5 mt power supply cable
- Level alarm and overdosing protection integrated in the software

Optional:

- Low Level Switch sensor
- Filtration pump dosing consence
- **COMPLETE PACKAGE:**

*Upon request can be supplied complete with one pH Buffer Solution,
ORP electrode, electrode holder, Saddle Clamp, all packed in one box.*

INSTALLATION KIT (Standard)

Mounting Bracket+ Screws	Suction Tube 2mt PVC	Inj. Tube 2mt PE	PP Injection Valve	PP Foot Filter
-----------------------------	-------------------------	---------------------	--------------------	----------------

COMPLETE PACKAGE Extra KIT (Optional)

1 x ORP Electrode (Short type)	1 x 1/2" Pipeline Electrode Holder, made of PP 30% talk reinforced	2 x Saddle Clamp for Ø50 mm tubes, with 1/2" connection for electrode holder.	1 x 50cc 468mV buffer solution bottle.

PRODUCT SPECIFICATIONS

ME2-pH

Digital Dosing pump
with pH control on-board

- Compact Solenoid proportional digital pump with a built-in pH controller
- Adjustable Setpoint between 6.0pH e 8.0pH
- Realtime display visualisation of the pH
- Probe efficiency indication
- Standard dosing mode (pH-)
- Definition of the proportionality greatness range
- Automatic calibration of just one pH point (pH7) using only one button!
- Easy installation and minimal maintenance
- 2 x 7 Segments digital display and one alarm led
- Pump head with manual bleed for pressure priming
- PP CASE and HEAD reinforced 30% talk
- IP 65 protection
- Security and reliability
- Polycarbonate front panel
- Wall mounting with stirrup
- 2,5 mt power supply cable
- Accessories Kit with ball injection valve, hastelloy spring

Optional:

- **Self Degassing Pump Head**
- **PVDF Pump Head**
- **pH+ Dosing mode**
- **COMPLETE PACKAGE:**

Upon request can be supplied complete with one pH Buffer Solution, pH electrode, electrode holder, Saddle Clamp, all packed in one box.

INSTALLATION KIT (Standard)

Mounting Bracket+ Screws	Suction Tube 2mt PVC	Inj. Tube 2mt PE	PP Injection Valve Pyrex Ball-Viton OR	PP Foot Filter	1,5mt PVC bleed tube

Datasheet

PRODUCT SPECIFICATIONS

- Professional digital microprocessor based instrument with LCD display.
- Available in wall mounted or panel mounted versions.
- IP54 protection for the versions MSP (panel mounted) and IP66 for the MSB (wall mounted) version.
- Possibility to a temporary exclusion of the outputs (eg. For maintenance) using the ON-OFF button.
- N°2 Output Rele adjustable like the set-points or minimal and maximal alarms.
- N°1 Current output programmable on all the scale, with the possibility of recording or proportional adjustment.
- Galvanic separation on the mA current output to avoid disturbs due to the connection to a PC or PLC with earth reference.
- The instrument in the panel MSP version is complete with a connector on the back.
- Measuring range directly programmable on the instrument.

Optional:

- RS 232 EXIT

TECHNICAL INFORMATION

Power Supply	230V~ +/- 10% 50-60Hz standard, 115V~ , 24V~ +/- 10% 50-60Hz o 24V - +/- 10% (Altre su richiesta)
Power	5VA max (rele exit version)
Fuse	24V~ => F250mA , 110V~ => F100mA , 230V~ (K1=relè) => F100mA
Measuring range	0.00 : 14.00 pH / -1000 : +1000 mV
Analogic inputs	Accuracy better than 1% on F.S. Repeatability better than 0.2% on F.S.
Digital inputs	N° 1 input OFF/LEV to disable the exits (OFF in the case of a standard K1 rele) Accepts pure contact (current free). Tension on the connectors 5V, max current 5mA.
pH / Redox	On extractable connector (coaxial cable + reference). Input stiffness > 10 ¹² W
Rele output	N° 2 independent . On a 5 pins extractable connector. Max range 250V~ 3 A resistive.
Current exits	0/20 o 4/20 mA (adjustable from program) max charge 600 Ω. Max Err. 0.5% on F.S.
Climatic conditions	Storage Temperature -20...+60 °C Working temperature -10...+50 °C Max Humidity 90% condense free
Termocompensation	With PT100 (optional)
Container	Made of NORYL in the panel mounted version (MSP), and made of ABS in the wall mounted version (MSB)
Protection	Panel version: IP 54, wall veriosn IP66
Display	3 ½ Digit high contrast LCD, h = 12 mm

APPLICATIONS

- Chemical industries
- Medical industries
- Laboratories and analysis
- Water Treatment
- Drinking Water
- Disinfection
- Swimming pools
- Reverse Osmosis

Power	5VA max (rele exit version)
Fuse	24V~ => F250mA , 110V~ => F100mA , 230V~ (K1=relè) => F100mA
Measuring range	0,00 / 100,00 FTU (NTU), 0,00 / 500,0 FTU, other on request
Analogic inputs	Accuracy better than 1% on F.S. Repeatability better than 0.2% on F.S.
Digital inputs	N° 1 input OFF/LEV to disable the exits (OFF in the case of a standard K1 rele) Accepts pure contact (current free). Tension on the connectors 5V, max current 5mA.
Turbidity	On extractable connector from turbidity cell (CTS96) max. 3 bar
Rele output	N° 2 independent . On a 5 pins extractable connector. Max range 250V~ 3 A resistive.
Current exits	0/20 o 4/20 mA (adjustable from program) max charge 600 Ω. Max Err. 0.5% on F.S.
Climatic conditions	Storage Temperature -20...+60 °C Working temperature -10...+50 °C Max Humidity 90% condense free
Termocompensation	With PT100 (optional)
Container	Made of NORYL in the panel mounted version (MSP), and made of ABS in the wall mounted version (MSB)
Protection	Panel version: IP 54, wall veriosn IP66
Display	3 ½ Digit high contrast LCD, h = 12 mm

NOTES

- MADE IN ITALY
- 100% Tested before delivery
- Produced conform to CE laws

rev 2.1

Technical Datasheet

APPLICATIONS

- Chemical industries
- Medical industries
- Laboratories and analysis
- Water Treatment
- Drinking Water
- Disinfection
- Swimming pools
- Reverse Osmosis

PRODUCT SPECIFICATIONS

- Two-sections measuring and control unit for the pH and the Redox .
- Wall mounting, IP67 protection
- Double LCD 3 ½ digits display
- Electronic calibrations and set-point definitions are simply adjustable by trimmer.
- 1 ON/OFF output for each measurement with the possibility to adjust the functioning hysteresis
- 1 output for each measurement 0/4 – 20 mA max charge 500 ohm
- Manual shunter for forcing the functioning of the output rele (ON or OFF)
- Compensation of the pH /Temperature with PT100 (optional)

Optional:

- RS 232 EXIT

TECHNICAL INFORMATION

Box	Made of self extinguishing Plastic
Holes	254 * 254 mm
Holes and brackets	294 * 254 (horizontal brackets) 254 * 294 (vertical brackets)
Protection degree	IP 67
Display	3 ½ digits LCD high contrast display
Rele outputs	1 power supplied exit for each measuring
mA Exit	0/20 or 4/20 mA max charge 500 ohm
pH rele hysteresis	Adjustable with a continuity from 0.1 to 1 pH
Rx rele hysteresis	Adjustable with a continuity from 1 to 10 mV
Accuracy	Minimal 1 % f.s.
Repeatability	Minimal 0.5 % f.s.
Working Temperature	0 ... +50 °C
Power supply	220 - 110 - 24 Vac +/-10% 50-60 Hz 4 VA to be specified with the order

Note:

The information regarding repeatability and accuracy are related to the electronical side

APPLICATIONS

FUNCTIONING EXAMPLE

PACKAGE (cm / Kg)

Controller: 30 x 30 x 15

3,5

NOTES

- MADE IN ITALY
- 100% Tested before delivery
- Produced conform to CE laws

PRODUCT SPECIFICATIONS

- Professional microprocessor based digital Controller.
- Wall mounting, IP66 protection.
- Display LCD back-lighting 2 lines x 16 characters.
- Possible combinations : pH-Rx-T ; CL-pH-T ; pH-Rx-CL-T
- N° 2 rele 230 V exits for a selectable by program functioning like: ON-OFF, alarm, proportional PWM, proportional to impulses
- N°2 rele current free exits for selectable by program functioning like: ON-OFF, alarm, proportional PWM, proportional to impulses
- N°1 contact current free exit for alarms / errors
- N°2 Current 0/20 or 4/20 mA exits, selectable on one of the four measurements selectable from program, with galvanic separation on the outputs.
- Serial RS 232C output, available on a female 9 pins CANNON connector or on-demand on different connectors.

Optional:

- Remote Control

TECHNICAL INFORMATION

BOX	Made of ABS
Holes and brackets	445 x 440 mm (horizontal brackets) 360 x 520 mm (vertical brackets)
Protection degree	IP66
Display :	LCD alphanumerical two lines for 16 characters , backlitted . h = 10 mm
Rele outputs	2 power supplied for selectable from program measurings 2 current free for selectable from program measurings 1 current free for selectable from alarms / errors
mA Output	2 with galvanic separation (0- 4/20 mA) max charge 700 ohm
Accuracy and reliability	PH: Accuracy better than ± 0.02 pH , repeatability better than ± 0.01 pH RX: Accuracy better than ± 0.02 mV , repeatability better than ± 0.01 mV Temperatura: Accuracy better than ± 0.3 °C, repeatability better than ± 0.2 °C. Cl2: standard scale 0...2.00 ppM Cl2 . Input from galvanometric chlorine cell CLE01D. Accuracy better than ± 0.02 ppM Cl2 , repeatability better than ± 0.01 ppM Cl2 Other input scales to be specified with the order (eg. 0...5ppM with the sensor CP-xxx)
Working temperature	-10...+50 °C
Power Supply	230Vac +/- 10% 50-60 Hz, 45 VA (110 o 24 V~ 50-60 Hz upon request)

Note:

The information regarding repeatability and accuracy are related to the electronical side

APPLICATIONS

SPEEDYPOOL

Pool Control and Dosing Panel

- ABS Thermo-formed elegant panel
- Two MP1 Speedy -pH/Rx, dosing pumps with on-board pH/Rx controller.
- Digital display for reading and programming.
- Easy programming and calibration, possible with just two buttons and a digital display.
- T.A.L. security testing system [timed alarm] for possible chemical end or electrode reading defect.
- Plexiglas transparent electrode holder, with a window in the case showing the state of electrodes and water flow.
- A red light back illuminating the electrodes once the product is turned ON .
- Internal tap for water sampling (under the ABS front cover).
- Minimal maintenance required .
- Supplied assembled and ready for usage.
- Supplied complete with an installation kit.

INSTALLATION KIT

- Low level switch possibility on demand (on the dosing pump)

INSTALLATION KIT

Standard	2 x PP Injection VITON lip Valve	2 x PE Injection Tube 2mt	2 x PVC Suction Tube	2 x PP Foot Filter	2 x PVC Bleed Tube
Optional	2 x PP inj. Pyrex BALL valves with hastelloy spring				

TECHNICAL INFORMATION

Type	Lt/h	ml/imp	Bar	Imp/min	Watt	VAC	Stroke	Tube Diam.
DP 4	4	0,37	9	180	100	230	0,9	4x6
DP 5	5	0,46	8	180	100	230	1,1	4x6
DP 8	8	0,74	4	180	100	230	1,3	4x6
DP 10	10	0,92	2	180	100	230	1,3	4x6

Power: 230VAC

- Optional:**
- Other Flow-Rates on request
 - Graphical personalization, barcode area with logo and address, manuals.
 - Graphical personalization of the panel

APPLICATIONS

- Drinking Water Chlorination

DRINK PANEL

Drinking Water Control and Dosing Panel

SIZE (mm)

LIQUID ENDS

Component	Standard	Optional
Pump Head	PP 30% Talc re-inforced	PVC / PTFE
Diaphragm	PTFE	
Double ball valve	6mm Pyrex	
Injection fittings	PP	
Ball - O Ring	Pyrex - Viton	

Upon Request:

Injection Valves	Hastelloy spring Viton/Dutral Lip-Valves
------------------	---

PACKAGE (cm / Kg)

	
750 x 660 x 260	13 KG

NOTES

- MADE IN ITALY
- 100% Tested before delivery
- Produced conform to CE laws

PRODUCT SPECIFICATIONS

GP - GPA

Complete Dosing Systems

GP : Complete system ready for the pump mounting, composed of a PE Tank, Tank reinforcement for pumps and mixers, vertical pump mounting. Level sensor option upon request.

GPA : Complete system ready for the pump and Mixer mounting, composed of a PE Tank, Tank reinforcement for pumps and mixers, vertical pump mounting, fixed suction support. Level sensor option upon request.

APPLICATIONS

- Water Treatment
- Chemical Industry
- Swimming pools
- Medical industries
- Laboratories and analysis
- Detergency

NOTES

- **MADE IN ITALY**
- **100% Tested before delivery**
- **Produced conform to CE laws**
